StencilQuik™ patent pending BEST Inc.

Hot Bar Soldering for Flex Circuits.

Fancort Industries introduces micro-processor-controlled equipment that produces uniform and precise temperature distribution, fast heating and cool-down. The Pulse Heat Bonder and Soldering Systems offer a wide range of programmable profiles for targeted idle (to 150°C), with preheat and reflow temperatures (to 500°C). The many applications include edge connectors to PCB, TAB to PCB, Hot Bar Reflow, Soldering and other uses. Optional B&W camera system. Rotary 2-station also available. From \$10,500.

COMBICON THR Terminal Blocks

Want through-hole stability and reduced PCB board assembly costs? Phoenix Contact's COMBICON THR (Through Hole Reflow) terminal blocks and headers are engineered to withstand the heat of the SMT soldering process, eliminating the need for time-consuming secondary wave or hand soldering.

The Ultimate Cutter Ring

The Razor

- 100-300% increase in blade life!!
- Cleaner Cuts - Reduce inspection time significantly
- No Heat - No more Melted Solder Joints
- Available in Cutter Rings for all Lead Trimmers
